TITLE (MAX 100 CHARACTERS)

DESCRIPTION (max 400 characters)

Three-year system action for professional degrees, approved by the Regione Emilia-Romagna with resolution n.....

Rif. PA. N°

Beneficiary

What is the European Social Fund Plus

The European Social Fund Plus is the main financial instrument by which Europe invests in people to qualify citizens' skills, strengthen their ability to cope with labour market changes, promoting quality employment and combating economic, social, gender and generational inequalities.

The ESF+ 2021-2027 Programme of the Regione Emilia Romagna

The Regione Emilia-Romagna through a process of discussion with local authorities, stakeholders and the economic and social partnership, has developed its strategy of programming the available resources, amounting to over 1 billion euros. The Programme is the main instrument for implementing the European Pillar of Social Rights at regional level. The projects financed with Fse+ resources are selected by the Region through public procedures that guarantee quality and transparency. This is how the Regional Programme is transformed into concrete opportunities for people and businesses and how the Region invests in the future of its community..
